

Perfect World client cannot be launched twice if there is a pw client window named "Element Client" so you need to rename it from using Renamer/Title Changer, ... then you can rename it, for example "Element File Client" and it will work without problems. In addition, you can remove an item from the game, for example, through the control panel and remove items from the control panel. Problem: The client cannot be started twice. Solution: 1) Check if Perfect world client is running or not. To do this, check the "client" tab in the "Start" window if there is a "Perfect world" program icon in this window (or in the "My Computer" window).
